NORTHERN CONTESTANT WINS NOMINATION

MINDEN COUNCIL DISCUSS ROAD SITUATION

Anson, Hindon and Minden Council met on Wednesday 13 June in the Council Chambers. It was decided to send a letter to Mr. Robert Sim, Road Engineer at the Department of Highways explaining the lack of co-operation experienced with Stanhope Township with respect to Boundary Roads, and asking his advice on the procedure necessary to get Stanhope Council to do their share of the work or pay for their share of the work to be done by the Municipality of Anson, Hindon and Minden.

A further letter was forwarded to Mr. R. Sim, with a copy of motion enclosed requesting permission to establish the salary of the road overseer at \$4160.00 per year plus allowances of one day sick leave per month in accordance with new wage schedule to be adopted on the 1st July by the Municipality.

A new wage scale is to be introduced on July 1st for all Municipal Employees.

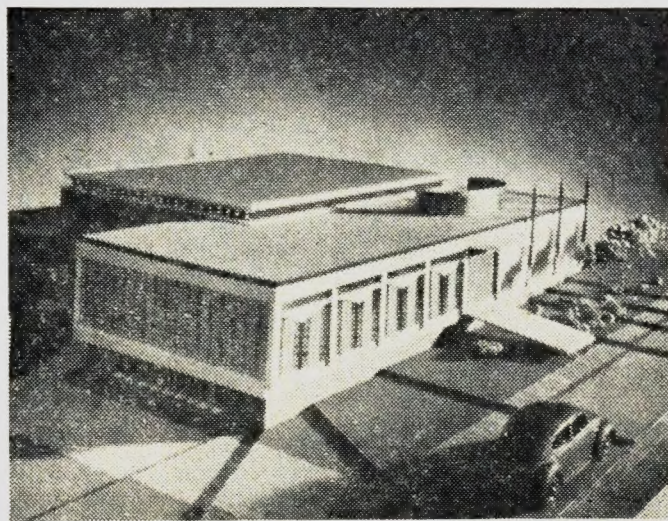

Lutterworth Refuses Minden Appeal For Money

Lutterworth Council refused Minden's appeal for a contribution towards the building of the recreation portion of a municipal building at a council meeting June 5th. The Lutterworth council feels that they have a large undertaking in the building of their own Municipal Building. Minden recently sent a plea to surrounding municipalities in an effort to raise money for their new enterprise.

Glen Hodgson and Roy Windover after the results have been announced.

—Watchman-Warder Photo.

Illustrated is a model of the new Haliburton Branch Canadian Legion Building that will replace the burned-out structure. Architects for the new Legion hall are J. W. Ridpath of Lindsay. Plans for the new construction are practically finalized and building is expected to commence around July 1.

—Photo John Boyd, Kenlin Studios, Lindsay

Glen Hodgson, son of ex-MP Clayton Hodgson emerged as the winner over seven other candidates for the Progressive Conservative provincial nomination in Victoria-Haliburton Riding. He edged Roy Windover of Minden out by 100 ballots in the seventh ballot. The balloting took some four and a half hours to complete. The first ballot saw the dropping of Wilbert Worsley and the first ballot forecast the order in which the other candidates were to be eliminated. John Alton was next to drop out followed by Earl Palmer, Monty Robson, Bill Shields, Bert Hick and finally Roy Windover leaving Glen Hodgson the possible provincial replacement for the Hon. Leslie M. Frost at the next provincial election.

COUNCIL ADVISED ON ARENA SITUATION

Mr. Leslie M. Frost has informed the Anson, Hindon and Minden Council that he has discussed the matter of Minden's Arena with Mr. Lorne Cummings the deputy Minister of

Municipal Affairs who, incidentally is a summer resident of the township.

Mr. Cummings stated that he would look over the situation and if it is possible for the Government to extend assistance to the Municipality through the Community Hall's Act, it will be done.

Receive Letter From

Frost On Deep Bay Road

Lutterworth Council received a letter from the Hon. Leslie M. Frost M.P.P. for Victoria-Haliburton in reply to a letter sent by the council recently concerning a request that the Department of Highways take over the Deep Bay Road as a development road. Mr. Frost stated that he would be in the area in the near future and had planned to look at various roads.

He is truly wise who gains wisdom from another's mishap.
—Publilius Syrus-Maxims
x x x

ROAD REPAIRS

Once again Highway crews are out filling up the huge winter-created pot-holes in Highway 35 from Carnarvon up to Hall's Lake. The residents of the area are looking forward to the day when a complete reconstruction job is undertaken on this Highway. It is understood that this year is likely to see the start of this project and all concerned will be happy to see the work completed.

D. M. S.

No sooner said than done—so acts your man of worth.

— Quintus Ennius.

HALL'S LAKE NEWS

The Congregation of St. Stephen's Church at Boskung spent a happy hour with the Rev. and Mrs. Thomas Gracie after his last Sunday service, May 26th. The lounge at Glenroy was the scene of a gathering of parishioners and friends who gathered for the send-off and presentation of a purse to the couple. The Good Wishes of all were expressed by the Wardens - Douglas Armstrong and Leonard Stinson. The ladies of the Guild provided refreshments assisted by the hostess, Mr. Bursey.

The Congregation of St. Stephen's Church at Boskung are pleased to welcome the Rev. and Mrs. William Goodswan to this area and trust they will enjoy this Northern community.

Last weekend was a busy Summer-like one around the lake with many people in swimming, boats on the lake and good trout fishing. One party from Kitchener caught five good size fish at Hall's Lake in quite a short time.

Several tourists from a distance are spending a June holiday at Lodges around the Lake. It would certainly be nice if our tourist season could be extended from June to September with all Lodges filled to capacity for the four months.

NEW IMPERIAL ESSO STATION

The new proprietors of the Imperial Esso Station at Hall's Lake, Mr. and Mrs. Richard Cummings held an Open House Party at Club 35 on Thursday evening June 13th to get acquainted with their neighbours around the lake. The Minden Progress wishes Mr. and Mrs. Cummings every success in their new business venture.

Laugh and the world laughs with you;

Weep, and you weep alone,
For the sad old earth must borrow its mirth,

But has trouble enough of its own.

COMMENTS

"Leaflets three, let it be" ... a useful little jingle to remember if you want to avoid poison ivy which always grows close to one of your favorite spots under the trees! The three little leaflets on a single stem, with greenish white berries growing in clusters presents an attractive appearance but it can sure spoil your holiday fun if you come into contact with any part of the plant. If you think you may have been in contact with poison ivy, even having walked through or touched leaves or stem, a quick washing soap or detergent will help to remove the poison oil that causes the trouble. We've heard people boast that they are immune to poison ivy—maybe so, but the day will come when they find themselves as susceptible as everyone else!

x x x

HERE'S SOME SUMMER-TIME READING

Those of you interested in the early days of Haliburton are urged to purchase a copy of "Early Days in Haliburton" by H. R. Cummings, published by the Ontario Department of Lands and Forests and available from them at the Parliament Buildings in Toronto. This well illustrated book with supplement of maps in the back should be on sale in stores throughout Haliburton County.

The Hon. Leslie M. Frost in a Foreward in the book says "Mr. Cummings has been indefatigable in his efforts to reconstruct a story of a century ago. In trying to get behind the great dignified, mysterious land, there will be found extracts from Surveyor Niven's Diary quotations from MacDermott's little known pamphlet, maps of Robert Bell's line, accounts of Mossom Boyd, the story of whose operations is inseparable from that of Haliburton up to the middle eighties, of Bernhart his mighty foreman, and many other incidents related to the early development of this sparkling vacation land."

MUSKOKA AND HALIBURTON 1615-1875 A Collection of Documents

A book of great interest to residents of both Muskoka and Haliburton is "Muskoka and Haliburton, 1615-1875, A collection of an introduction by Florence B. Murray. This two inch thick volume that sells for a modest \$5.00 is volume six in the Ontario Series of the Champlain Society and is published for the Government of Ontario by the University of Toronto press.

The volume begins in the seventeenth century with the arrival of the first Europeans known to have visited the Georgian Bay shore and with the Jesuit Fathers who ministered to the Algonkin Indians in this area and concludes some two hundred years later with the establishment of communities, the coming of the railways and the start of the tourist trade. The volume is far from being a local history in any shape or form—more it is an attempt to show the place of Muskoka and Haliburton areas as typical lands of the Laurentian Shield and taken

with the previous five books in the Ontario series shows the development of the Province of Ontario as a whole.

John P. Robarts in a foreward to Miss Murray's book mentions the part played by Leslie M. Frost in researching the history of this province and as residents of Haliburton know, Mr. Frost has always had a particular interest in this part of the country.

Of interest to us was a quote of page 377 "The Establishment of the Minden News. 'The new county Haliburton, had not long to wait for a representative journal. We (the Orillia Times of July 23, 1874), have received the first number of the News published at Minden by Messrs. Rogertson and Walsh, proprietors of the Peterborough Times. It is very neatly got up, and promises to be conducted with more ability that distinguishes the average country newspaper. Mr. Barr, of the Lindsay Post, is said to contemplate the publication of another journal in the same place. The latter will be the exponent of sound liberal views; the News professes to be independent in politics."

THANK YOU

I wish to thank all who attended the Progressive Conservative Convention in Lindsay on Saturday, June 8th. I appreciate your support and good wishes.

EDITORIAL . . .

WATER SAFETY IS YOUR BUSINESS

National Water Safety Week has come and gone and it didn't get as much publicity as it should have received. However Water Safety isn't something that needs to be practised one week a year. It has to be practised every moment of the time that you are enjoying your fun in the sun.

We do not want to record water fatalities in this newspaper this summer especially if caused by carelessness, ignorance or plain disregard for the common sense rules of water safety. Remember when water skiing wear a government approved life-jacket. Learn everything you need to know about operating a boat (the booklet 'Safety Afloat' is obtainable free from the Marine Regulations Branch of the Department of Transport in Ottawa). Learn water-skiing techniques and signals on land before taking to the water, water-ski only in daylight hours and keep a responsible lookout in the towing-boat as well as the driver. Use the correct size motor in the boat and keep your boatload to its safe capacity.

Children and non-swimmers in the water need supervising at all times; investigate strange waters before swimming and never swim alone!

There is nothing worse than a holiday interrupted by tragedy — take water safety with you

Human history becomes more and more a race between education and catastrophe.

— H. G. Wells

Lutterworth Councillor Dies Suddenly

Councillor Oliver Greer, 66 of Lutterworth Township passed away suddenly on Saturday 8 June. He was attending a Benefit Dance at Norland when he was stricken with a heart attack. A long-time resident of Lutterworth Mr. Greer had been a Lutterworth Township Councillor for the past three years. Mr. Greer was a highly respected member of the community and the suddenness of his passing shocked his many friends.

COTTAGE DESTROYED BY FIRE

A fire was reported to Minden Volunteer Fire Department at 7:45 p.m. on Sunday 9 June and both pumpers left for the scene. A 4-room log constructed cottage situated on a gravel road just west of the Hydro Switching Station off Highway 121, north of Minden was completely destroyed. The cottage was owned by Mr. Latvia of Toronto.

The people occupying the cottage at the time of the blaze were Patrick Doris and John Liggitt. A small explosion occurred when coal oil was being used to ignite a kitchen stove and the fire spread to the floor and then to the coal oil container. The cottage and contents were estimated to have been worth \$800.

MEN CHARGED WITH COTTAGE BREAK-INS

Calvin Edward Martin, age 17, John Charles Vine 19, Charles Guy Latvia, 17 and David Mercer 17, all of Toronto were charged with breaking into five cottages in the Lake Kasagawigamog area and Minden OPP are looking for one more person in connection with the incidents. These people were residing at the cottage that was destroyed by fire on Sunday, June 9th.

Love truth, but pardon error.

SANDY WHITE OPENS HALIBURTON CUBS DE- NEW STORE

Sandy White is opening a second store in Minden at the former Brooks Real Estate Office. To be known as the Holly Shop, the store will carry a range of inexpensive but well chosen gifts and the store will be decorated in a "Christmas Box decor."

The Holly Shop will open in the latter part of June and Sandy White will also be running her store at the former location.

FEAT MINDEN 8-6

Haliburton Cubs defeated the Cub pack from Minden by a score of 8-6 in a softball game at the ballgrounds at the Minden Public School of Tuesday June 5th. The Haliburton team were ahead 6-5 late in the game until Minden tied the score 6-6 and then Haliburton scored two runs to end the game 8-6. The Minden team were perfect hosts and treated their visitors to soft drinks at the end of the game.

THE PIONEERS HAD THE IDEA

Nutritionists recommend in Canada's Food Guide that in addition, to potatoes, there should be eaten daily two servings of other vegetables — preferable green or yellow and often raw. That gives a chance to the outdoors types to emulate the first settlers and gather some of the "wild greens", which are suggested by nutritionist authorities. Included are dandelions, dock, fiddleheads, lamb's quarters, watercress and young stinging nettles (grown to six or eight leaflets). To cook these young vegetables they should be washed and then cooked in a minimum of water for the shortest time.

COX's APPAREL MOVE

Marie Cox proprietor of Cox's Apparel Store on the main street in Minden have announced that she will be moving her store to the former postoffice building at the end of June. Alterations and decorating is now proceeding and the new location will enable Cox's Apparel to carry an even more comprehensive line of clothing for men, women and children.

MINDEN HOST TO ORANGE PARADE

At its semi-annual session at Gooderham the Haliburton County Orange Lodge decided to hold the Twelfth of July Parade at Minden this year.

COUNTY DISCUSSES SENIOR CITIZENS HOME

Dear Ratepayer,

We seek your views and indeed, will welcome them, so will you please treat this as a personal letter.

At a meeting of our County Council, last January a delegation representing one of our local groups, presented a request that the Council consider the establishing of a Senior Citizen's Home in the County.

The delegation pointed out among other things, that Haliburton was but one of two Counties remaining in the Province that did not have such a home; that there was a justifiable need and that the Provincial Government would bear 50% of the cost of building and 70% of the yearly maintenance. We also have the assurance that such a home would meet with their approval.

Following a brief discussion by the Members of County Council this body appointed a Committee to make a thorough study of the proposal and report to them at a subsequent meeting, and finally to place the matter before the ratepayers by letter for their views.

The need is evident and we know it is going to increase rather than decrease. The question is, can we justify the cost? Should we defer it for two or three years? Can we afford it at any time? OR can we afford not to proceed at the earliest possible date?

This would mean that the County of Haliburton would be obligated for \$200,000.00, plus interest on the debenture, which over twenty-five years could amount to an additional \$150,000.00; resulting in the cost to the County, comprising of 10 Municipalities of approximately \$15,000.00 per year.

Based upon the experience of comparable Homes throughout the Province, maintenance cost could be figured at not more than \$4.25 per resident per day, for the first year; this would drop sharply, to possibly as low as \$2.90 per day in succeeding years. It should be borne in mind, that, with the possible exception of the first year or two, maintenance cost is largely defrayed by Old Age Pension, paid over by each resident Senior Citizen to the Home, less 15% which each is allowed to retain. Also, that the Provincial Government bears 70% of maintenance costs; therefore, this cost to the County should be negligible and until such a Home became self-supporting, the above tax increase would be sufficient to cover any additional the County might be called upon to bear.

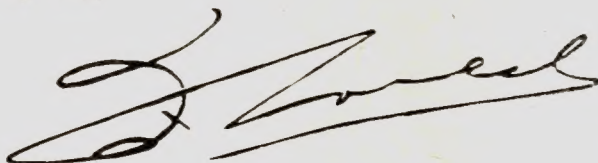

These are the facts, set forth as accurately as we can for your consideration.

Granted, we are burdened with taxes of one type or another. The question is, can we bear this additional? We know the need is here and will grow. We all are desirous of providing for our Senior Citizens, in the twilight of their lives comfort, freedom from worry, care when they can no longer look after themselves.

It is not the purpose of the Committee in this letter to express an opinion for or against. Too frequently, in this age are taxes increased for this purpose or that without the taxpayer having a voice. In this instance, the Committee will make its recommendation to County Council on the basis of a majority opinion of the ratepayers.

Please think about it and let us have your views at the earliest possible date, addressing your reply to the undersigned.

Yours very truly,

Frank Welch,

County Clerk-Treasurer.

P.S.—If the above amount of \$15,000.00 were expressed in terms of dollars and cents, tax increase to each ratepayer within the County would be an average of approximately \$3.00 per year.

Canada's Population

Total population in Canada reached an estimated 18,846,000 on April 1, 1963. This is an increase of 338,000 or 1.8% since April 1, 1962.

Alberta again had the fastest rate of growth at Columbia with 2.2%. Ont-2.6% followed by British ario had the largest numerical increase of 110,000.

"We will not be undersold"

SPORTS

WITH BOB BEENEY

I have been asked recently what sports I will write about in the summer months when sporting activities (according to many people) are curtailed in proportion to the number of winter games we enjoy. Actually there are a great number of athletics to enjoy at this time of year, possibly more than in any other season. We are in the midst of the softball schedule that carries through to the end of July when the playoffs begin with four teams in competition for the Championship of Haliburton County. This is perhaps the only competitive league sport we have; however there are many other pastimes that can be pursued. The abundant waterways of the County supply us with a number of sporting activities. There is boating which with the new style boats and the increased horsepower of many motors is becoming increasingly popular . . . swimming, surfboarding, waterskiing and fishing to mention a few others. Perhaps the most individual sport played is golf and with the different courses we have in the area, every type of difficult shot imaginable can be encountered. A more exciting diversion is go-cart driving, just getting an introduction in Haliburton County but winning more admirers every day.

Considering the number of people who play horseshoes a small size tournament could easily be started. The now defunct Dominion Day Celebrations sponsored by the Kinsmen Club of Minden used to always draw a crowd to the horseshoe pits and the games were really competitive. The many tourist resorts have adequate sporting facilities that include tennis, shuffleboard, badminton and archery. So I imagine by the time we hear a little from each of these sports it will nearly be time to watch the Monarchs strap the blades on for another year.

★ ★ ★

Overtime: -Information just released from the CAHA shows that the total player registration for last season was 165,632, more than 22,000 over the year before and the OHA had 83,192 players in the 1962-63 season, more than any other branch.

BILL WEBB FROM TORONTO**

Scouting Corner

with BILL PAYNE

An invasion of the north will take place on the 21st of this month. Fifty boys and leaders are going to camp on the shores of Ross Lake. This country has been fished, logged hunted, explored etc., but never like it will be the end of this month. There probably won't be a stone unturned, tadpole escape, worm wiggle away or plants and weeds not picked when the Minden Cub Pack takes to the woods to explore nature's wonderland. The final preparations are now being looked after and although there is still a lot to be done we will be ready when we arrive. The purpose of a Cub Camp is to see that the boys have a healthy and happy camp, and everything has been looked after to ensure that this will be so. When the boys go up to scouts they will be taught how to look after themselves regarding a survival type camp.

I have often heard the saying that we should give the country back to the Indians, and I have heard recently that when we go to camp the Indians might try to take it from us. We will just have to see if this is true when we are around the Indian Council Fire.

One item that we have not been able to obtain is an Indian Chief Headress for our Indian Council. We would be more than pleased if there was one available in the district for us to use.

If the parents are having trouble trying to figure out what their boy should

take to camp, the following will be a guide to personal equipment needed.

Sleeping bag or three blankets, full uniform, long and short pants, long sleeve and short sleeve shirts, knife, fork, spoon, plate, bowl, mug, toothbrush, wash cloth, two towels, INSECT REPELLENT, and no sheath knives please. Running shoes or play shoes, soap

INSECT REPELLENT

Congratulations are in order for Steven Mackenzie in his earning the Toy-makers Badge. Steven looks like he is following in his Father's footsteps. Steven's Father is a Cab-

inet Maker and probably counselled Steven in making a rocking toy in the shape of an elephant. This is all the badges that Steven can wear until he has earned the right to wear his second star. Lets see that second star soon Steven.

We will be back in the next issue with a full account of the invasion of the north and maybe some pictures.

With the summer vacations coming soon it is time to take stock of our safety habits. Relax and enjoy yourselves on vacation but don't relax on common sense safety habits.

If a man has a talent and to use the whole of it, he cannot use it, he has failed. If he has a talent and uses only half of it, he has partly failed. If he has a talent and learns somehow

has gloriously succeeded and won a satisfaction and a triumph few men ever know.

— Thomas Wolfe

REMINISCENCES

by Bob Harvey
of "Al and Bob" Radio
fame

Fire is a thing I've dreaded ever since I was a youngster due to the fact I was once trapped by fire and always remembered how terrified I was.

Since then I recall two fires I was involved in. Actually one was not a fire at all but came close to being a very nasty situation.

This happened in the village of Omemee a few miles east of Lindsay. The occasion was the opening of an auditorium or hall that had been build by Lady Eaton, who was born in that village.

I was there to accompany my Dad who with his partner C. LeRoy Kenny and other artistes were supplying the entertainment for the evening. The building was heated by the first pipeless furnace I remember seeing. I recall the temperature was well below zero so the caretaker had really stoked up, as we walked down the centre aisle on our arrival the heat coming from the one big register almost lifted you off your feet.

We were about half way through the show; Mr. Kenny on the stage at the time, when somebody opened an exit door that had an outside stairway, evidently to get a little fresh air in the place. Well, as soon as the warm air struck the extreme cold air a cloud of condensation swept into the building. Immediately someone holled "Fire". Women started to scream, children shrieked and several men climbed over the balcony railing and dropped to the ground floor.

Through my Dad's quick thinking we all rushed on stage and began singing "It's a Long Way to Tipperary" and finally were able to pacify the audience. Two or three women had fainted and I believe one old gentleman had a heart attack but eventually we were able to finish the show. It was a long cold walk to that flag station in the morning.

The other incident, this

time a real honest-to-goodness fire, happened in the village of Waterdown a few miles east of Clapperton's Corners outside of Hamilton.

My Dad and I had returned to the Hotel after a show on the 24th of May. I was just getting into bed when I heard somebody shouting "Fire! Fire!".

I soon discovered it was not in the Hotel but across the road at the back of a three storey General Store. The door the man was kicking was at the entrance to the Post Office and as soon as he smashed one of the panels the flames shot almost immediately to the roof. Everybody in the Hotel was up in no time to see the Village Fire Department come down the street with the Fire Engine. They placed the intake valve in a brook that ran behind the Hotel and four men hurriedly manned the pump. I don't suppose the contraption had been used for years for when the water started to come it was like a sprinkler system—there was more water coming out through the hose than there was out the nozzle.

I remember a young girl commenting humouresly "Some Stream!". I could see the fire gradually creeping to the front of the store and tried to imagine what was going to happen when it reached that window full of fire crackers. I didn't have long to wait—the big plate glass windows crashed and everybody ran for their lives amid a shower of skyrockets, roman candles, pin wheels and cannon crackers! all that was left were the four walls that were pulled down by the Hamilton Fire Department who arrived in about an hours time. It was a real May 24th celebration! In the morning I discovered that I had ruined my first pair of tan shoes, carrying water, when we had to form a bucket brigade to prevent the Hotel from catching fire.

WARP and WOOF

JUNE is bustin' out for sure, the lawn is comin' up dandelions and the voice of the turtle is drowned out by the whine of the mowers, as everyone tries vainly to keep ahead of the grasss... First it seems that the grass will never grow, but once it starts, don't turn your back or it time to mow it once more. The robins second venture into the hatchery business came to grief as the nest fell down and the eggs were smashed.. but the robins are not daunted.. They have moved to a tree in the back yard and are busily setting up house-keeping once again... more robins comin' up!

x x x

THAT MAN has his garden all planted with T.L.C. peat moss, fertilizer, the works.. A neat little fence encloses it all. And what is planted in this sacred spot? We'll let you in on it... 13 tomato plants, that's what! 13? Oh dear, an unlucky number... well time will tell.

x x x

Well bless their little pointed heads! Father's Day is here again... and the problem, what to give the blessed creatures! One wife solved it this way: A card with the usual gooey verses, and a note enclosed said.. "Here is a cheque for a million dollars. Buy new golf clubs, A Rolls Royce and a Lotus, A private Island, A cabin cruiser, deluxe size, complete with crew. A trip around the world ten times with stopovers on the moon etc., and anything else yoh might fancy.. P.S. Hope my cheque doesn't bounce!

x x x

That was the wife who said to her husband "All right, all right, I like to spend money — but name one other extravagance!"

x x x

An Ad from that used car lot: For sale 1952 Dodge in almost perfect condition, driven by lady charity worker with only small dent in rear.

x x x

And then there was this headline in the Minden Progress "Dog Runs Wild, Bites Several People In The North End."

x x x

Have you ever noticed while riding along in your car how the road signs arrange themselves in a motorist's version of the Seven Ages of Man? Infancy — Slippery when wet; Childhood, children at play; Youth, school — go slow; courtship, dangerous corner, soft shoulders; marriage, junction — no turning; career, men at work; old age, downhill — use low gear. (From our foreign correspondents).

• • • • •

One businessman to another: Recession don't bother me much. I was a failure during the boom."

• • • • •

More.. "An American discovers Canadianism."

You get Canadian money and you get the feeling they thought you wanted to play Monopoly: They are very sensitive about their separateness from the States: Point out that the only thing they get out of England is the Queen's picture on their money and a prepaid trip to a war every twenty years, and they get a lump in their throats and you get one on your head" ...

x x x

A FUND RAISING PROJECT

The final luncheon of this years Toronto U. N. Model Assembly saw 400 delegates sitting on the bare floor of a church gym and feasting on rice and

water, served on paper plates and cups. They paid \$1.00 for "a taste of hunger" as a fund raising project to aid the "World Freedom From Hunger" campaign.

★

OFF WITH HIS HEAD!

IN Saudi Arabia an offending driver who survives a mishap fatal to anyone else is beheaded without hesitation. If a motorist is at fault in a non-fatal accident, he receives a one year prison sentence and loses his driving privilege for life:.. So you think our demerit system tough?

Did you know that this month The Canadian Motion Picture Industry will celebrate the 60th Anniversary of the first successful cinema in Canada which was held in the Edison Electric Theatre in Vancouver, in 1902. Motion pictures have been shown in Canada since their initial year in 1896 but at that time there was not enough film to supply a permanent location.

HERE'S DINNER- IN- A-DISH .. A QUICKIE

SAUCEPAN RICE WITH BEANS: Season 4 cups of cooked rice with a quarter cup of butter.

Stir in a twenty-ounce can of drained green beans and a half pound of shredded cheddar cheese (that's 2 cups). Heat just until the beans are hot and the cheese melted... Serves 4.

x x x

There's just one thing wrong with the younger generation — a lot of us don't belong to it anymore!

The Secret

Grandpa took no vitamins. His bread was not enriched. He thrived on sweets and starches And simply never switched, Grandpa ate the things he liked His diet was all wrong. But Grandpa's eighty-six today And still is going strong.

x x x

And our parting thought "Prayers should be the key for the day and the lock of the night." Go to church this Sunday Dad and have your faith lifted.

FROST REVIEWS HIS YEARS OF SERVICE

In 1937 Contest

It is now 29 years since I first became your standard-bearer in the provincial field. In that time I have had strong support, without which I could not have been successful. During the years which have passed I have been your Member for some 26 years. At the time when I am about to hand your standard to another of your choosing, I feel I should write to you thanking you for your unfailing assistance and to refer to some few of the things which have resulted.

In 1943, after six years in the Provincial Parliament, I was called upon to serve in a wider field as a member of the government. I became Treasurer and Minister of Mines and, on May 4, 1949, Prime Minister of Ontario, in which office I continued until my retirement in November 1961. This period in which I had the privilege to serve saw Ontario's greatest development in both human and material resources. Our population increased by half; our rate of growth has doubled that of the United States. Over half a million new dwellings were built.

The standard of living of our people, including salaries and wages, increased at an unprecedented rate. We multiplied our power resources many times, brought natural gas from Western Canada, and devoted the atom to the ways of peace. Ontario's manufacturing output was doubled. We made farm marketing a reality. The

seaway was built and our great rivers developed. The trans-Canada highway system was brought into being. Equality of opportunity in all phases of education became a reality. A new school or addition came into being every day of every year for the last 15 years, Sundays and holidays included. Under a Federal-Provincial partnership Old Age Pensions at 70 became available to all, with pensions for needy persons at 65, and disabled persons at 18. Widows' Pensions became available at 60. Hospital insurance became available to all. Ontario, by legislation, led world in the recognition of the dignity of human personality without regard to race, colour or creed. This is a record without precedent which we can regard with satisfaction.

In our own riding these things I have mentioned have made unbelievable changes in our way of life and in our material assets. In 1943 not a foot of pavement existed north of Fennelon Falls. Now all provincial traffic arteries have been modernized and we are engaged in making them better. We now have new entrances to our counties and direct and modern connections with the "400" systems which are connected with America's modern thruways. Unlimited electrical power has been made available to both rural and urban communities and, with this, modern appliances such as electric refrigerators, stoves and other appliances, including farm equipment, have become universally used. The Forestry School, the Girls' Training School, and other Government buildings have been located in our counties. Our Forestry Department with regional headquarters in our capital town is second to none on the continent. Modern education, in keeping with the days in which we live, academic, vocational and business administration, is now available to every child in Victoria and Haliburton with transportation on a modern road system. Hospitals have been built and enlarged and, through hospital insurance, made available to all. Our people

here are protected by pensions, insurance and welfare facilities which are designed to guard against the hazards of life in a way not even contemplated 20 years ago. Indeed, our way of life, rural and urban, has been altered and our standard of living raised by the 50 per cent which is common across our Province.

At this time when I hand back to you the standard which you gave me to carry over 20 years ago, I affirm my confidence in the future of our country and our Province. Great as has been the advancement to which I have referred, it can and must only be regarded as a stepping-stone to the even greater progress that lies ahead. Our horizons are unlimited to a people with courage and determination. Our Progressive Conservative Party must be, in the future as in the past, the spearhead of development which is the key to our destiny.

In 1949 when I became our Party's leader, I decided it to the people as the people's party—a party in which men and women of every walk in life, without regard to racial origin or background, could serve our Country and our Province. In the years which have passed the Party has been the means by which men and women have been enabled to put their shoulders to the wheel to press Canada, Ontario, and our counties forward to their greater destiny. This is the jog and the opportunity of today. The 8th of June will witness another historic convention at which I am confident that our Party which has meant so much to our Country in the past will rededicate itself to the tasks and the limitless opportunities ahead.

At this time, I thank you for your help and support in the past and I can assure you that, as a private citizen, it will be my purpose to strengthen the Party in its influence and its opportunities in the days ahead under the strong confident leadership of our able young Premier John Roberts.

Sincerely yours,

Leslie M. Frost.

As He Retired

SNOWDON CHILDREN TO BE TRANSFERRED TO GELERT SCHOOL

Children that are attending the public school in Minden will be transferred to a school in Gelert if they are Snowdon Township residents. The children's parents feel that since some of the children have always attended a modern school in Minden that it wouldn't be fair to have the pupils switched to a one room school. One parent has stated that he will enroll his children in Toronto if the decision isn't reversed.

ANSON, HINDON & MINDEN TO PAVE TWO MILES OF ROAD

The Municipality of Anson, Hindon and Minden are going to pave two miles of road in the near future. A section of road from Carnavan west approximately to the bridge will be asphalted along with nearly a mile of road in Ingoldsby.

PINE SHOP HAS SUCCESSFUL OPENING

The Pine Shop just recently opened in Minden has had a very successful opening. The gift shop is operated by Mrs. M. Cox and features gifts that are mostly imported. One highlight of the shop is the many dolls from all over the world.

STAMP CORNER

with Al Capon

THE RAREST STAMP IN THE WORLD!

The world's rarest stamp is a poor specimen with clipped corners, rubbed surface and generally faded appearance and yet it has sold for as much as 7,343 pounds sterling! The stamp is the famous 1856 British Guiana 1 cent, black magenta paper, illustrated above. It was first discovered by L. Ver-

non Vaughan of British Guinea who exchanged it with a local dealer for 6 shillings worth of bright new stamps. The famous collector Philipp la Renotiere von Ferrary paid one hundred and fifty pounds for it in 1878, a huge sum for a stamp in those days. It later realised 7,343 pounds at auction in 1955 in the enormous Ferrary sales. The stamp had received a bid of 7,500 pounds back in 1935 when it had been put up to auction but failed to reach the reserve at that time.

Faded, rubbed and damaged it may be but the 1 cent British Guinea is still unique, still the world's most valuable stamp and the world's most coveted postage stamp!

QUOTES FROM THE PRESS

...It has been suggested we hold "A Calgary Stampede" on Little Lake as a tourist attraction. We are not opposed to encouraging tourism, but the cows are going to look silly in water-wings.

Satisfied customer

He still can't quite believe it. His VW gives him a better ride than cars costing twice as much. He's found out about the Volkswagen's independent suspension. And its torsion bars. It's enough for most owners to know that the VW can rip over rough roads flat-out, and stay steady as a rock.

That the VW provides ample comfort for the average family (mother, dad and two or three growing youngsters). And that it cuts their motoring costs in half.

But if you want all the details, we have them. Maybe you could be a satisfied VW customer. Come and see.

MAGISTRATE'S COURT

At Magistrate's Court held in Minden on Thursday May 30th, 1963, Alan Richardson of Minden was fined \$50 and costs for drinking under age.

Charged with careless driving Donald McLellan was fined \$25 and costs.

William Godfrey of Gooderham was fined \$100 and costs for driving while disqualified.

Glen McCall was fined \$15 and costs for careless driving.

Lawrence Cummins of Toronto charged with careless driving following a sports car accident at Hall's Lake was fined \$25. and costs. Lloyd Cowan was fined \$15. and costs for making an improper left turn.

COX'S APPAREL MOVES TO LARGER STORE

Cox's apparel in Minden are going to move to a larger store in an effort to give their customers better shopping conveniences. The store will still handle a top quality product in a larger display area. The business will be located in the former Post Office building and the move is expected to take place sometime in June.

ROTARIANS HOLD

BANQUET

Minden Rotary Club entertained wives at a banquet held at Ogopogo Lodge on May 27th and also present were club members and wives from Hali-burton Rotary Club. An invitation was also extended to the Kinsmen Club of Minden and several Kinsmen and their wives attended.

A sumptuous banquet had been prepared by the host and hostess of Ogopogo Lodge on Highway 35 to which nearly seventy people attended. Rotarian Primby Hess proposed a toast to the ladies which was responded to by Mrs. Ken Currie. Rotarians Slim Brandon and Percy Britnell led in a sing-song after which, dancing was enjoyed for a few hours to bring a most enjoyable social evening to a close.

WATER WORKS

SYSTEM STARTED

Installation of a \$131,000 water system for Minden has commenced announced Reeve Lawrence Pritchard. The work is being done by the Gapp Construction Company of North Bay and first evacuations and pipe laying is being made in McKayville.

About \$7,000 has been spent so far on acquiring property and the drilling of a well. The system is expected to cost about \$13,000 a year including debt retirement, operating costs and a reserve for replacements and renewals.

It is understood that Ontario Water Resources Commission engineers have reported that the well will supply about 150 gallons a minute under normal conditions.

It is not expected that work will be started in the main street of the town until the early Fall.

CAR ACCIDENT

Harry Clark of RR 1, Minden and Morgan Trumbell of Minden collided in Minden on 7 June with minor damage to the vehicles.
